A: The keygen, as far as I know, should be issued by someone who also has the product, but they don't give you the key because they are not sure that their product is working as expected. This is a fairly popular method used in China, and in this case they appear to be protecting their brand name and not the software, but you might have to ask a more reputable seller for the actual key. DUBAI (Reuters) - An Iranian military commander has described Britain and the United States as "mean" and "disgusting", as the British embassy in Tehran said it had seen no evidence of an agreement between the two countries to keep Iranian nuclear sites secret. Britain and the United States accuse Iran of trying to develop a nuclear weapons program and imposed sanctions against Tehran in June when it declared its nuclear program was entirely peaceful. Iran has since been vague about its nuclear activities, but on Thursday its forces shot down a U.S. drone near the main Iranian nuclear facility at Bushehr, the first known incident between the two countries since the U.N. nuclear watchdog lifted sanctions on Iran in January. The semi-official ISNA news agency quoted Iranian military commander Major General Mohammad Ali Jafari as saying British and American authorities were "mean and disgusting". "Their 'agreement' was only to cover the nuclear issue and they saw no need to keep the sanctions which they had imposed in the past on Iran," the semi-official news agency quoted him as saying. The Fars news agency said British Ambassador Craig Murray wrote to Iran's Ambassador 54b84cb42d
