Hawkshot: Multiplayer Space Gun Warfare is a single player game designed for PC, Mac, Linux, and Android devices. It was developed and published by The Game Developer. The game was released on August 16, 2015. Hawkshot was first released on June 20, 2015. The game is played from the perspective of a first-person shooter, or FPS game. The game allows up to eight players to play the game at once. Hawkshot has been described as "a fun and addictive multiplayer space shooter, mixing fast-paced game play and smooth controls with some smartly crafted gameplay mechanics." Gameplay When you begin playing, you are placed on one of the team's ships. The objective of the game is to kill all of the opposing ships, while you are being attacked by other teams. The game utilizes a four-button mechanic. The four buttons are A, B, X, and Y. There are also additional actions you can perform during gameplay such as throwing missiles, punching, and pulling off maneuvers. Each team has three types of ships. There are fighters, gunships, and attack ships. You are free to switch between the ships at any time. The objective of the game is to collect the objective point icon. The point icon is the target of a ship's attack. Your job is to defend and protect the objective and destroy the opposing ship. The time limit of the game is three minutes. The game has a scoreboard where you can see how well you are doing. The rules of the game are very simple. You are playing with six other people, and you have three ships to each team. Each team has to protect the objective, and destroy all the opposing ships before time runs out. You have to choose a ship. The game is simple, but it is important to choose a ship that will be advantageous. You can change between ships at any time. If you are playing as
