The navigation system is responsible for guiding you to the actual destination and providing you with its detailed map. Unfortunately, many trucks feature internal GPS navigation systems that stop working when the truck is outfitted with more devices. The Double Color 4G Navigation System is a DIY GPS navigation system and an amazing alternative to many truck GPS systems on the market. It offers all the elements of a great truck GPS navigation system. The Double Color 4G Navigation System is equipped with all the necessary features of a truck GPS navigation system, including 2G/3G satellite mapping, live traffic information and a built-in compass. When doing a long trip it's difficult to get accurate position information. With live traffic information you will always have updated info about the route you are driving.
