
FilmConvert Pro 218 Win64

I need to add below information to my web page in /skin/web. It displays error message in Login page when a user clicks on sign-in button. I have already. /skin/frontend/classic/default/login.php Any idea? I don't know how to solve this problem. Thanks. A: The error message is saying that you have specified the "login" action to use an extension that is not registered. The extension should be made visible to Magento somehow so that Magento can find it. Use the Magento extension manager to turn on extensions that aren't registered.
