You will be redirected to the Adobe Labs page (link below), which is actually called Adobe Flash Player Square. If you are using it, be aware that you will need... Adobe Flash Player "Square"... If you don't, it will just give you an error or fail to download the plugin. You can install Adobe Flash Player "Square" from any link in this guide. You then need to install Flash Player for Windows 8 or OS X 10.8 in order to use the plugin, as well as update Flash Player for Windows 7. To do this, go to the Start menu and select Control Panel. From this menu, select "Adobe Flash Player" and click "Update Flash Player".
