KEYMACRO is a program that lets you record and synchronize any keystroke to MIDI clock. Keystrokes are recorded directly to MIDI clock and can be played back or used as MIDI notes. With this app, you can capture keystrokes you make, including Alt and Super keys, and even a hardware controller, such as a Roland Juno-D. Recordings can be saved to file, or even be sent to MIDI devices. And you can even choose from a wide variety of MIDI effects to give your recordings a unique sound. With the help of this program, you can capture any keystrokes you make. You can also make use of its MIDI clock function. In this mode, a MIDI clock is used to synchronize the playback of recordings to MIDI clock. For example, this allows you to play a recording that you recorded with KEYMACRO back to your MIDI sequencer. Note: This app does not include a hardware controller.
