What's New in the Lumen?

We'll start with the installation first. Luma is a Live Customizer for Windows Vista. It is like the Mac version of Lumen: you choose from a menu of options and set the appearance for your system. Here's a video of Luma in action. Once the customizations are done, the options are saved to a XML file. You can open the file with Luma, and the customization settings will load immediately. The entire system will update without any restart, or other user interaction required. The customizations will remain until you choose to save them. Luma is designed to be safe. We'll look at more details below. Lumen is a Live Customizer. You make your choices, and the customizations will update immediately, without restarting, or other user interaction required. Lumen is a Live Customizer. It is like the Mac version of Lumen: you choose from a menu of options and set the appearance for your system. This means that Luma is an easy way to customize any or all of the following items: Background and Windows Theme Start Menu Home Screen Start Menu Rocket Dock Logon Screen Lumen Description: We'll start with the installation first.
