2020-07-05. Myda53: Where is the "Internal reGeneration of map data in my Navteq map" and "Internal reGeneration of map data in my MapSource map"? Now I have with mapguide (fbl install) the "Target map" option in my GoMan, my GoMan shows my MapSource as a Target Map. When I'm try to load my MapSource into GoMan, GoMan show me the following error: "Error "Target map is empty"". When I change the "Source map" option in GoMan, my MapSource show me a white background, but I don't know if it's a "Source map" or a "Target map". Bitte I don't know how I can configure my 'GoMan' to load my MapSource. Jun 13, 2019
