Have you ever missed your pets? Do you like cats and kittens? Wanna have fun with kitties? I made this theme as a gift for my wife, I think we both are kitty lovers and so do our girls. I've never done anything like this before. It's her first. The theme uses the background and font from the other themes that I did, but it has a few new features that are also uniquely different. Everything has been made from scratch, even the layout of the theme. There are no frames, no plugins, no built in search feature… just a clean and simple design. The effects are all working on stock WordPress. This theme is great for people who are looking for a fresh and new theme for their blogs. It's very stylish, functional and unique. I'm sure your readers will enjoy. Last update: Oct 25, 2016 Sleepy Kittens Theme Sleepy Kittens Theme is a Free WordPress theme. It is an animal themed theme.
