new vehicles. Players can now make tactical decisions that affect the entire army by gathering intelligence, rebuilding their force's morale, and executing a massed strike. The Allied campaign begins with Operation Torch in the coastal city of Oran, Algeria. In June 1942 you are in charge of the U.S. Army's First Army and must attack the remaining Vichy French units from three directions. Next, in November, you lead the US Army's First Corps into the French Alps and manage the vital supply lines in the Rocky Mountains. After winter in Tunisia, the Allied invasion of Sicily begins in July. In August you lead the British Eighth Army through the mountains towards Messina. In September you defend the key Italian city of Sfax from fierce enemy attacks. In October you take on the Axis forces in the battle for the Kasserine Pass and break through the Mareth Line. In January 1943 you lead British forces against the Axis on the banks of the Volturno and seize the vital port city of Bari. In February you push into the mountains of central Tunisia, where you face veteran Axis forces at the Mareth Line. In the spring of 1943 you successfully outmaneuver the Axis forces and occupy the Tunisian port of Tunis. The campaign continues in the summer, as you lead the British 8th Army to retake Sfax, and push north to form a continuous front with forces who joined Operation Torch. **is kind of like dumping a bucket of water on the bedspread. Werther is compelling. I can't remember reading any book that is this directly about the writer's experience, even though many writers have music and childhood memories that are great fodder for a story of their own. Werther is part of our cultural DNA. Werther is universally and instantly understood. There is only a tiny step from audience to poster. **the memory of his seventeen-year-old suicide. Ask me about it and I'll tell you all about it. I don't know that I like the memory of my own suicide. I don't feel that I was clever or brave. I just got drunk and squeezed the trigger. I was crummy, and there was no room left for me to even try to be decent. I was born bad, and I'm dying bad. I'm a horrible guy. I'm currently alive because I was a sad case and I made the right choice. I made the right choice after I made the wrong choice. It is, of course, a common theme in fiction. Fiction exists to break open the residues of reality, to make common our unbearable peculiarities. So we need the Greeks and so we need Lord Byron, crazy wild young black-haired American poet Adam Clay (or the diminutive Clay) who, like Werther, can take no pleasure in living. And we need Werther. We can't live if we can't die and we can't love if we can't die. Werther gets me. And in order to get me, we must first of all know how it is to be crushed. Some say that "you will experience both sorrow and joy throughout life. It's just that one is bigger than the other. You will experience full joy when your sorrow can be used by you for a greater purpose." But that's not how I feel. The harder I try to live through all my sorrow, the more I'm just stunned and horrified by it. Why can't I live? Sorrow is a sharp, barbed, and evil creature. Its ability to impart**
