Download OMG Oh My God Sequel torrent reviews MacEufuzycabediCesareine. Italy3/5 stars just have to mention that this film with no doubt is, in my opinion, a brilliant comedy. There is a moment when a lady of a high rank looks in the direction of the actor being watched by her. The actor then points out the lady in question towards his hair. And that was it. That's all the film was about. The sound and song were a little bit embarrassing but that couldn't completely destroy the charm of the film. In the first place, the film is a remake of the American film "Oh My God!" and as such, there are many references to the original film. The director Kishore himself is a big fan of the original. What else can be said? The director has done a good job. The dialogues are catchy and in different parts of the movie the director does not keep you in a dark cave of misery but exposes you to the sun. Note: ZoroAustralias5 stars in my opinion this film is one of the most hilarious Indian comedy films I have seen. It has everything and nothing that is expected, very clean laughs and some spectacular scenes. The director Umesh Shukla has the makings to be a major comedy director. It is an extremely fun film, with its own flavor which is distinct. The only downside of this film is that it is a bit long, but that does not spoil its charm at all. The film looks beautiful, it is colorful and spectacular and has some wonderful scenes of fights and humour. I enjoyed it all and I am hoping it to be released on DVD by Reliance. The Force(Australia)5/5 stars! really enjoyed this movie. If you haven't seen this movie, make time to check it out! It's a bit far fetched, and it can be quite dirty at times, but most of the time it's pretty funny. The cinematography is outstanding, the comedy is amusing, and the whole thing just rolls right along. I would say it's at least 90% good, and it's easily worth watching.
