What's new:

in Darkness Deathdays End in Darkness is a historical-fantasy novel by Helen Lowe, published by Virgin Books in June 2007. At its heart lies the life of the love behind Brian Boru, legendary King of Ireland, who faced the might of a divided country in order to save his people from the threat of the Vikings. Plot introduction Story begins with Brian Boru, King of Ireland, holding his patrimony of Ulster high in the air until, in 1175, in a series of raids and battles, Sigurd of Orkney and others bring slaughter to the Irish lands. The Irish kings King Fiacha and Brian Boru fight for their very lives to save their people and bring peace to the land. Brian Boru concludes the peace treaty, his sister holds hostage in a convent of Irish nuns, and he departs Ireland for the last time to avoid death and leaves his sister to this future. Brian Boru retires in Dublin, and after taking on Ireland's first knight, the Irish make him Abbot of Clonmacnoise in 1181. The greatest of the St. Bernard heroes was Hugh of Puente Piquer. Brian Boru's mother was a daughter of Hugh, and on his deathbed, the saint came to him and said he was named Brian Boru in the tradition of his house and was destined to come to a good end, but he admonished him to ensure he made certain decisions. The nonfiction books used on the events and figures in this novel are Peter Tremlett's The Dog and the Angel:
