How To Crack:

First, you have to download the installer via torrent to install or just simply extract the archive.

You may choose to carry out your installation either from the archive or using the installer if the archive you intend to use. After extracting or installation, just run the setup file and you will find the interface of the program. You will go to the setting section and you will select the default program. Tick "Run or start program" on the installation section and you have to completely enter your activation code.

After complete your installation, go to the "Crack" section and there you will find a directory with different crack code. Just enter the code given on the crack code and you are done.

Activation code is the essential thing for you because it helps your account to activate. As soon as you enter this code on the registration page, the account will work and you can start playing your game. Don't waste your time if you haven't got your activation code or you didn't enter your activation code because it is the basic code and you must need it on your account.

Then, open notepad and paste the code that you have just cracked from the Crack section into the notepad.
Then, you have to simply save the Crack file and run it. Now you can play the cracked game and you will be able to unlock all free content.
It is better you write down your User name and Password because if you are using an installer or just cracked the crack we cannot help you as it is an offline game.
