With this tool, you can be ready to listen to music anytime. Finding new music and music will not be trouble. And the song can be listened to the moment it comes. Just installed this for the first time and am very impressed. Awesome tool. But one thing about it - it's locking up my PC and bringing a black screen. You can kill the rPuush process, but it locks again and if I try to start another instance of it, it does the same thing again. I like to run stuff with an app. I like to print stuff with a printer. I like to see stuff on the screen. But this tool, from the moment it's first opened, start consuming a lot of memory and cpu cycles. It's kind of good, I like it cause I can use it, but it should be, at least, decent. I like to run stuff with an app. I like to print stuff with a printer. I like to see stuff on the screen.
