In this episode let me introduce you to the Puzzle Cafe VR to give you a little more detail on what it's all about. Intro I was actually planning to do this episode a few weeks ago, but the number of updates has increased my level of excitement. I'm really looking forward to uploading episode eleven this week. If you've ever played No More Robots' puzzle game Supremacy or Castavario's boxing game, Fist of the North Star VR, this is in a completely different league. **Sailboating Events. that's what Mart Friesen likes to do. Your Lido Title will appear prominently on your console for U.S. Sailboat Events. Good luck, and want to visit with you on the TB pages sometime soon. While I may not be a big manufacturer advocate, I have to say that my main reason I purchased the very first new Sailor 34 was because it had the "years of Yachtsman and Yachting World official winner emblems" on the outside of the hull. And, it is unfortunate that this empoly would not "add" yachtsman and yacht world badges to this boats. Hi Arthur, Thanks for the comment and rating. I understand completely and it seems to me like you and Jon own the current sailboats you enjoy, which I also own and can see as a distinct advantage. I totally get it and I'm honored not to be the only of all the current manufacturers who adds the famed yacht race marks. Such an ephemeral mark and I believe it is something I am also conscious as a competitor as well. I'll be in touch in the "future." Kind regards, Dan\_Sailor I personally felt you missed a lot of Yachtsman and Yachting World badges we put on and that Boat does not come from Boatslistings.com we offer more listing info to sell the boat to customers that do not really have time. You should be looking at the third/fourth photo, where it has "Yachtsman and Yachting World" on the hull. The pages are to my right, where the Hull number is 4 and the page is Sailing. You can click on that and it will take you to the Hull page, where it shows the Yachtsman emblem, and all the badges that have been added. Dan You should be**

**Fox must test himself and collect special things which he can use to open the door to his new home. You can move to more places with the use of objects you find. Use checkpoints, evolutions and expansions on each level to beat this simple game. If you play this game, please consider NOT to leave your comments within the game itself. Become the fox, a magical character, as you travel through the forest. Start collecting special items, as you progress in your journey, and then you will unlock different rooms. Throughout each level, you will collect many things. The items could be different between each level, but the core idea is that you collect the items, unlock the rooms and find your way to the exit. If you are looking to create a new game, using this game as a base as a way to start your journey, then we recommend that you make your own unique game using levels for the game. If you wish to use some aspect of this game as a base, or use some other parts of the game (maybe costumes, or powers, etc.) then it is okay, as long as you don't copy the design or the way this game was made. Known issues: Dozens of bugs remain in the game still, so we are planning to fix those bugs. Despite the fact that we are currently trying to have a continuous evolution to the game, and we are always listening to the community. If you feel we should change something, please contact us in our Facebook page: and we will try to give you a feedback. Finally, if you are going to comment on the game please be aware of the following guideline: The community is a very small part of the work of the graphic designer, the musicians, the programmers, etc. We are not full time developers so we cannot always find a lot of time to give feedback. And even if we try to put in almost all the time possible to understand and fix bugs and problems, we cannot do this for every user. We have different jobs. We do this because we love what we do. And we love the fact that we can make something awesome like this game. But we also have to feel that we are tired or we are already too hungry to work on this game. In case we**
