Facebook: Twitter: YouTube: We are the Mods. We are the Creators. We are the Prophets. Hi, we're YoKobra. We created the game No Man's Sky. We also make Mods. We make Mods because we want to make amazing things. We play games because we love to have fun. We want people to have fun playing games and we are crazy about games. But, sometimes, fun can feel selfish. While you were having fun your friend was not playing games. That's not fun. We do a lot of things. First, we go on adventures. We go to faraway lands because we want to see them. We travel to different places, to other planets, because we want to see what else is out there. We go to battle and we go to space, just because we love to have fun. There are lots of other reasons too. We are crazy about music and we love to listen to it. We play live shows to share our music with people. We love to sing, we love to play instruments, and we also love to tell stories. Sometimes we act out our stories and then we tell more stories. We love to draw and we make comics. We love to make art and we do a lot of that. We tell stories and then we make games. Sometimes we combine them. We make stories in games and then we play games. We make games to experience our stories. We are crazy about games and we have a lot of fun playing them. It is quite a lot, everything we do. But we wouldn't be true to ourselves if we only did any one of those things. So we do them all at the same time. Our life is quite a lot. We are proud of what we do. We try to become better people and better artists. We are trying to be good at the things we do. We can be better at the things we do. We are always trying to be better. We make these videos because we want to share our life with you. We want to share our stories with you and

IVORY PALACE TALES. In addition to the story of your character, there are a variety of quests in the main story line as well as a host of side stories. Through these, you can enjoy rich online and offline gameplay together with other players at once.

HIGHLY DIVERSE OUTDOORS. A variety of locations that call to mind the conflict of the fall of civilization. Though initially shown as the Sorain Highlands, this expansive and varied world has plenty more to offer, including the Fossom Knoll, the Dune Sea, the Dark Bowdler, and more.

IT'S INSPIRING AND CONFIDENT TIME! Your decision gains real impact when something moves and develops from your character's thought. All decisions and romantic encounters between your characters receive a romantic background scene, and you can even use the Digi-Input function to directly input your decision.

IN-GAME DAY/NIGHT CYCLE. You can freely play the story at your convenience. The story continues following the moon phases, ensuring a story that is unique to you as a player. In addition, the moon moves from the left side to the right side, illuminating different scenes for you.

If the game is too easy for you, you will stop playing immediately. The problem is that the game is not only too easy for me to play, but it also seems boring. This review is based on my opinion. I have no intention of using a review this small. Even if I play a game for a month or longer, I don't need to consider it because my own playstyle doesn't match with the game style. However, I am willing to play a game for a shorter period of time, such as a month, and I am playing a free game that is free to play. If it is not enjoyable, I will stop playing. If you would like it for the PS Vita version, i'm happy to as well, i'm not sure how that has been made for PS4, but give me a day of looking and i'll see if i can find out how its done for PS4.
