APOEL won their 7th title. Format Fourteen teams participated in the 2007-08 Cypriot First Division. All teams played against each other twice, once at their home and once away. The team with the most points at the end of the season crowned champions. The last three teams were relegated to the 2008-09 Cypriot Second Division. The champions ensured their participation in the 2008-09 UEFA Champions League first qualifying round. The runners-up and third placed teams qualified for the 2008-09 UEFA Cup first qualifying round. Point system Teams received three points for a win, one point for a draw and zero points for a loss. Changes from previous season APOEL didn't have to play in the relegation play off games. Failed AJob. Filesize(Uncompressed) -----: 136288 k. short description -----: updated 7 Feb 2011 ~: 6Q: How to include js file in a Go template I am using go-template to create go templates on the fly with the template string representation of a template. Currently I am looking at the following HTML example: But what is the Go equivalent for the template? package main import ("html/template" "os") func main() { HTML := template.HTML("hello {{. }}") err := HTML.ExecuteTemplate(os.Stdout, "myjs.js", "this") if err!= nil { panic(err) } } i.e. I'd like to have hello {{ template "myjs.js" }} A: You can use WithArg to inject variables, or WithString to get raw strings (not HTML). package main import ("html/template" "os") func main() { HTML := template.HTML("hello {{. }}") HTML.ExecuteTemplate(os.Stdout, "myjs.js", WithArg("hello", "world")) } Q: How to remove duplicate entries based on multiple entries? I have 2 things that I want 6d1f23a050
