Businesssex business edition software fur prins vsi. From Intel to Samsung and.Q: How to get SharedPreferences set on Restarted Activity I'm going to develop shared preferences between Activities in the same application, and need to be set that when I restart Activitys (like Home, Search, Categories, etc) again to be set again. For example in Categories activity, activity go to categories activity where have selected SharedPreferences, categories is

checked when I restart application. I'm developing with mvvm light. thanks, A: You can create an object to hold the information. public class MyDataObject { public String myValue; public MyDataObject(){ } } and then store it like this in your app: public class SettingsFragment:PreferenceFragment { SharedPreferences sharedPreferences; Context context; ArrayList<String> listData; Preference pref1; Preference pref2; public override void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); addPreferencesFromResource(R.xml.settings); context=getActivity(); listData = new ArrayList(); //Get reference to first preference and c6a93da74d
