It also gives the user a new way to interact with their virtual characters, but some might argue that it does not offer much more than the interface of older games such as The Elder Scrolls and Baldur's Gate. While Larian Studios enjoyed their success with Divinity, the company has since turned their attention to a totally different kind of RPG: fantasy meets modern science fiction with inventive storytelling. "Oh my God, I love it," says Larian. "It's a new world for us, because we've been doing graphics for medieval fantasy. We have this inner conflict to try to make the game reflect our own sensibilities, but to try to make it work with a sci-fi fantasy world. So far, it's the most fun we've ever had." From Larian's perspective, setting Divinity in the future means that they can create something that is new and exciting while still keeping with a tried-and-true formula. "If you have a sci-fi world, that doesn't automatically mean you need a sci-fi game," he says. "But if you do, then you're missing the boat. So you can have medieval fantasy, medieval fantasy, and that's what our game is. We have a medieval world with a magical world inside it." Larian is extremely successful at delivering a unique experience to its customers, while still keeping things grounded and realistic. "I think we do so much different because we're focused on realism," says Larian, referring to the fact that their characters do not have the superhuman abilities of other RPGs. "We have not a large budget, but we have so many artists. We have designers, programmers, level designers. There are so many people on this team. We really think of these characters the same way as we think of our real people. We don't think of them differently than we think of our real people. That's why we think the game is so real." Even the combat in Divinity doesn't have the brutal, visceral feel that most RPGs have. "I had a couple of fights," says Larian, "and I thought they were c6a93da74d
