The Primer Express® Version 3.0 Getting Started Guide provides instructions for automating primer and probe development for quantitative and allelic analysis. This section describes how to create and run Primer Express. Note: The documentation describes the Primer Express version 3.0 and version 2.x interface. The Primer Express 3.0 interface for earlier versions may differ without affecting their functionality. Creating a project and running Primer Express Creating a Primer Express project Select Primer Express > New Project. Enter a name for the project in the Name field. Enter a description in the Description field.

## Primer Express Software Version 3.0 Free Download
