CHICHEWA BIBLE DOWNLOAD

Buku Lopatulika 92 (Chichewa Bible) was originally a WEC publication. However, it has now been released under the ESD publishing arm of the Seventh-day Adventist (SDA) church. This project was started in 1981 by the late Bishop Nechakunza Joshua of the Central Africa Mission. It was published during 1981 to 1992, and was later on moved by the SDA church to replace the Chichewa Bible Free Offline accessible text. The only difference in the design of the Chichewa Bible Free Offline Accessible text and the Buku Lopatulika 92 (Chichewa Bible) is that the first version is in Chinyanja, and the later one is in Chichewa. The artworks of the versions are exactly the same and hence the difference lies in the text and teaching. When an electronic publication is first released, the marketing department of the publishing company will make the complete publication downloadable as a Zip file. Anybody can go online and download the file as it is very simple to download and install. However, to spread the word about the publication, the publisher allows download and install the complete publication on your Android, iPhone, iPad, Mac, PC, laptops, etc. This will then be referred to as shareable electronic publication. The way the publishing company does this is simple: it publishes the complete publication on Google Drive as a shareable electronic publication. Then, anyone can download it from there. The shareable electronic publication we are installing is the WEC edition of Buku Lopatulika 92 (Chichewa Bible). If you have already installed the Chichewa Bible Free Offline accessible text for Windows 8 PC, then there is no need to download the file again. 5ec8ef588b
