Arroway Textures - WOOD Vol.3

an overview of the business, the industry and the people behind arroway textures. we start with a brief history lesson, and then make our way to some of the more interesting things we see in the natural stone world today. the basic idea for this project was to scan some of the most unique materials, to give them an organic texture. we want to bring back the feeling of when you would walk through nature and see some of the most amazing textures. some of the materials we use are not even found in nature. a texture that brings out the natural beauty of the stone is key to the arroway textures, and the wood vol.3 collection is a prime example of this. the word wood is the key to this collection. all of the textures in the collection are made from wood veneers. no natural stone, no concrete, nothing else. over the last few years we have been approached by many people interested in our textures. we have actually been asked to scan some of the textures for use on other products. but we are aware that these textures are not meant to be used on other products. we are the experts in making these textures. we have scanned more than 400 samples with our high quality scanning techniques. we have scanned about 120 samples on this collection, and they all are available in high resolution. the rest of the collection is a masterpiece of textures. this is why we decided to update our collection of veneer textures. we have used that knowledge and experience to create an updated version of our veneer collection; to bring the textures up-to-date with our current workflow and the standard of quality for which we aim. we have used the latest methods and techniques and developed new methods and techniques to capture materials and create textures that allow for photo-real rendering results. we therefore decided to use that knowledge and experience to produce an updated version of our veneer collection; to bring the textures up-to-date with our current workflow and the standard of quality for which we aim. 5ec8ef588b
