
Mount And Blade Loverslab

April 5, 2020 - This game is really taking off in the modding scene. 42 new mods just today, including that breast slider. Most of them are related to numbers ... but not all. There are some really interesting things to look at and, no doubt, to find new and amazing things among them. Let's start with what it is: 1) Aurus. One of the coolest and most unique mods I've seen. It is made mostly of silver and has a very interesting design and is quite well executed. 2) I know I've never done this before, but I want to try a new mod this week.
