## Snap On Solus Pro Software Update

hi i have been given a solus pro. i am wondering what version of software do i need to update to? i am at version 8.1. i am having trouble updating my software and it doesn't appear to be doing anything. i have followed the guides online but i cannot get it to work. i need to know what version of software is compatible with the solus pro? i am on windows 7. is this a problem that i am having? do i need to have the correct drivers etc? thanks for your help. hi, i have a new solus pro. i just moved and didn't take the box with it. i have got the box from a friend, it is on 7.0. in the box i have been given the solus pro, manual and drivers. i tried using the software update wizard on my laptop, i tried using the solus pro software update on my laptop and i tried using the solus pro software update on my desktop. i tried it on 2 different operating systems. when i went to update it on the laptop, it said i needed to install the update before it would work and i tried but it still would not work. when i went to update it on my desktop it said i needed the software on both the solus pro and desktop. i do not have the software on my desktop and i am not sure where i can get the software from. is there a way that i can get the software from my friend and update it on my desktop. i do not have the manual or drivers from my friend. help please. i have a solus pro on version 7.3. i would like to update to version 8.2 but when i try to get the latest version of the software from the dealer they want £350. i have a laptop and desktop pc and i am looking for a software update method that would work on both my laptop and desktop pc. 5ec8ef588b
