Scp Immo Software V.4.50

Download

Billus Smart Building Software is a construction management system for your building, furniture or home office. It optimizes your tasks, projects and tasks by offering a modular construction process. Billus Smart Building Software is specialized in 3D/VR/AR-Visualization and provides an intuitive workflow from plan to reality. A flexible solution – whether you run a single office or a real estate corporation with thousands of employees – is based on the proven Microsoft Dynamics 365 standard. It supports you in the constant maintenance of your business relationships with prospects, partners and potential sellers. With our mobile app for Dynamics 365.immo, you can already deposit objects in 365.immo during viewings. Invoices, purchase documents, reports, inspection certificates, handover protocols, etc. you can generate directly from 365.immo and send to your customers. Additional user accesses are included in the price, not only the unlimited number of objects. There is no end to the possibilities of activities with the mobile app for Dynamics 365.immo. With the integrated tools, you can already create connections in 365.immo and process the booking. This saves you time and simplifies your work flow. Exposs, inspection certificates, reports, etc. you can generate directly from 365.immo and send to your customers. The development of our software continues to be continuous since it was launched on the market. Today, we are constantly updating and refining the product. Moreover, we are always able to provide technical support services in case of any problems or questions concerning our product. We would appreciate your comments and opinions, as well as other questions. Please don't hesitate to contact us with your questions and comments.

Scp Immo Software V.4.50

The immopac Cloud provides the original immopac management and collaboration platform itself and additional innovative services, such as cloud-based workflow management, presentation of daily activity reports and manual report generation. In addition, immopac red provides the full functionality of an independent data room, alongside the unique immopac collaboration platform. The immopac Cloud, which is available as an add-on to the immopac red data room and online collaboration platform, also includes further services, such as online presentation of the sales process, automatic registration of permissions, IOS-based access, collaborative licensing, confidential data exchange, the possibility of unlimited data access and the remote viewing of individual client data. Furthermore, the immopac Cloud includes additional and innovative services such as its Connectify function, which helps you keep unauthorized Internet connections from getting into your network, single file upload and transfer from the desktop and a bulk document upload and download from Dropbox. In addition, the immopac Cloud offers high availability and

maintenance as standard. The immopac Cloud is so innovative that it is also the first immopac solution to be certified according to the requirements of the German Telekom Innovation Program. A growing number of real estate companies are already using the immopac Cloud internally. Some of our satisfied customers include Deutsche Bank, the German Cancer Research Center, the German Trade Union Federation and the German Savings Banks Association. As a result of the immopac Cloud, the data room is completely digitalized and corresponds to immopac red in all functional aspects. This, in turn, enables the real estate companies to use the same workflow between the immopac Cloud and immopac red, ensuring efficient and quick processing of new documents. 5ec8ef588b
