# What's New In?

Moxier Wallet is simple application designed to offer users the perfect solution to manage important personal information such as website logins, passwords, PIN numbers, product data, financial as well as health and prescription information. With the help of this simple and user-friendly wallet, your data is now safer than ever before. Simply type in the search bar in the top left of the app, and choose from the list of items that you want to add to your wallet. The most common items that people want to add to their wallet are, of course, website logins and passwords. But you can also add PIN numbers, any confidential notes, names, addresses, contacts, medical info, financial records, documents, images, and other important items. The more items you add, the better you will be able to manage the information. Once you have successfully added the information you want to add to your wallet, you can give the wallet a name and access a folder for it. After that, you can choose to store the wallet on your desktop (recommended) or in the cloud. When you store it on your desktop, you can access it at anytime and anywhere and you can also download it on your phone. The "Move to Cloud" option allows you to store your wallet in the cloud so you can access it from anywhere and it will be updated in real-time. This can be very useful if you travel a lot or you are working from home and would like to access your wallet from your laptop or any other computer. After that, you can share the wallet with anyone you want. With the help of this wallet, you can access your wallet and add any item you want to share with any one of your friends and family. You can easily share a website password or PIN number with your friends via email, SMS, or instant message. You can add any website or any secure URL to your wallet and share the URL with anyone you want. This is a very convenient way to share a website URL with anyone. This service is useful if you want to share a website log-in information with a friend. It is easy to share the website login information with someone through email, IM, or SMS. Another unique feature of Moxier Wallet is the automatic backup feature. With the help of this wallet, you can back-up your wallet and restore it at anytime. This is extremely convenient if you are the type of person who is prone to losing all of the things you work so hard to keep and protect. Not only does this tool allow you to back-up your wallet, it will also back-up the folder you have created for it on your computer. When you back-up your wallet and you have a desktop version of it, you will need to download it and install the wallet on

## System Requirements:

Windows XP, Vista, 7, 8, 8.1, 10 Intel or AMD processor 2GB RAM 1GB HD space 1024x768 display resolution.
